## Robustness in ASR II

---

- 222      **Improving Joint Uncertainty Decoding Performance by Predictive Methods for Noise Robust Speech Recognition**  
*(Haitian Xu, M.J.F. Gales, K.K. Chin)*
- 228      **Improved Decision Trees for Multi-Stream HMM-Based Audio-Visual Continuous Speech Recognition**  
*(Jing Huang, Karthik Visweswariah)*
- 232      **Extended Minimum Classification Error Training in Voice Activity Detection**  
*(Takayuki Arakawa, Haitham Al-Hassanieh, Masanori Tsujikawa, Ryosuke Isotani)*
- 237      **An Improved Parallel Model Combination Method for Noisy Speech Recognition**  
*(Hadi Veisi, Hossein Sameti)*
- 243      **Robust Speech Recognition Using a Small Power Boosting Algorithm**  
*(Chanwoo Kim, Kshitiz Kumar, Richard M. Stern)*
- 249      **Robust Distributed Speech Recognition Using Two-Stage Filtered Minima Controlled Recursive Averaging**  
*(Negar Ghourchian, Sid-Ahmed Selouani, Douglas O'Shaughnessy)*
- 255      **A Study on Hidden Markov Model's Generalization Capability for Speech Recognition**  
*(Xiong Xiao, Jinyu Li, Eng Siong Chng, Haizhou Li, Chin-Hui Lee)*
- 261      **Sub-Band Modulation Spectrum Compensation for Robust Speech Recognition**  
*(Wen-hsiang Tu, Sheng-Yuan Huang, Jehi-weih Hung)*
- 266      **An Improved Perceptual Speech Enhancement Technique Employing a Psychoacoustically Motivated Weighting Factor**  
*(Md. Jahangir Alam, Sid-Ahmed Selouani, Douglas O'Shaughnessy)*
- 271      **MAP Estimation of Online Mapping Parameters in Ensemble Speaker and Speaking Environment Modeling**  
*(Yu Tsao, Shigeki Matsuda, Satoshi Nakamura, Chin-Hui Lee)*
